Annual

100,000+ patient lives impacted

150,000+ flight hours

500K takeoffs and landings

4.5M AirCom calls

Solution-based patient care and transport

Multiple models to provide optimal healthcare

Improved medical outcomes

Independent study from Optum Health found that patients treated by Air Methods typically experienced 24% lower post-event inpatient healthcare costs, and 65% lower post-event inpatient healthcare costs in trauma cases

Industry leading pre-hospital care

Air medical staff that can handle diverse medical emergencies, including specialty transports, due to our continuous world class training

Increased patient volume

Targeted growth in patient volumes, driven by a new kind of marketplace intelligence

Air Methods prides itself on strong relationships with our healthcare partners across the country.

Facilitating better care with ease for our patients

Ready to respond when a physician or a first responder calls us

Our Patient Advocacy program works with all patients, regardless of insurance (even those without insurance), to make sure that out-of-pocket costs are affordable based on their individual circumstance. We have an in-network rate of 78% with major insurance carriers. For the most current in-network agreements scan the code below.

Raising the bar for clinical excellence

Achieving unmatched clinical quality and patient safety in air medical transport

2,200
intubations per year

475,000+ total clinical
training hours annually

100K+ records and
reports reviewed annually

30 high-fidelity adult, maternal, pediatric,
and neonatal patient simulators

All community-based aircraft carry
lifesaving blood products in flight

The leader in advanced airway management

First attempt tracheal tube placement rate exceeds 93% nationally — nearly 20% better than the average pre-hospital rates.

CAMTS accreditation

Achieving CAMTS accreditation is a mark of excellence for a critical care transport program. The Air Methods' standard is for all community-based programs to earn CAMTS after three years of service.
